Bargain Prices on Fall and Winter Suits, Dresses and Wraps Are Being Quoted Now

No doubt many will wonder why reduced prices are being quoted on fall and winter models before the season is fairly under way. "There's a reason." It will be of interest to you to learn what that reason is, and may save you making a mistake in selecting your fall or winter clothes. The manufacture of women's garments is the largest single industry in New York, there being approximately ten thousand "factories" of various sizes. Each season these factories produce innumerable models, long before they are shown, hoping to win approval for them. A great many of these models "fall flat," and are placed in the discard. Many are called, but few are chosen. They are as dead as last year's styles, and must be disposed of quickly, and at a price. The longer they remain unsold the less chance they stand of being sold at all. They are the garments that are shifted to the bargain rack. THEY ARE NEW, many of them are reproductions of PARIS MODELS, but they fail to measure up to the style standard.

A bargain suit, dress or wrap at this time of the year is a style that is not good, never was good, and never will be good. You pay too much for such goods, no matter what you pay.

Style standardization is fully emphasized in these magnificent collections displayed in our show-rooms. Trig, individualized modes in new dresses, developed in velvet, tricot, satin, charmeuse, Georgette and all fashionable materials. The new silhouette suits with strikingly handsome tapering skirts, afford ample selection for smart dresses. Effectively fur trimmed coats, made of rich, warm materials, are shown in wonderful assortments at very moderate prices.

CHANGE FOR THE BETTER

And Pains in Sides Relieved, by Use of Cardui, the Woman's Tonic, Says Texas Lady.

Kemp, Texas.—Mrs. Minnie Cuff, of this town, writes: "I suffered with pains in my sides, and couldn't stand on my feet at times. Couldn't do my work, only what had to be done. I had a physician and he gave me medicine, though it didn't do me any good, and he advised an operation. I had read in the Ladies' Birthday Almanac of Cardui, so I decided to try it. When I had taken one bottle I felt the change for better. I took 3 or 10 bottles and have been well ever since."

I recommend Cardui to all suffering women. When my husband told Dr. Cardui, he said it was a good tonic for me. I will never cease praising it. It built up my system and strengthened me more than anything I ever did."

Cardui is a purely vegetable tonic medicine, composed of ingredients which have been recognized by medical writers for many years, as of value in the treatment of ailments peculiar to women, and thousands of voluntary letters similar to the above are received every year, from women users of Cardui, who have actually proven this to be true.

If you are weak and run-down from womanly troubles, try Cardui, the woman's tonic. All druggists. adv

SCOUT BRAVES FLAMES TO SAVE NEGRO BABE

Philip Faucette, boy scout of Troop 40, was the hero of a fire which destroyed the grocery store of E. Devoe, Orange Mount, and five negro houses, with a loss of \$5,000. The youth lived near the scene and watching the flames, was approached by George Brown, a white man, who asked the scout to rescue a two-year-old child in the second story of the building.

Without regard for the danger, young Faucette tied his handkerchief around his face and entered the building while the crowd looked breathlessly on. In about five minutes, after searching the

Drink Lots of Water and Stop Eating Meat for a While If Your Bladder Troubles You.

When you wake up with backache and kidney trouble, the kidney region is generally means you have been eating too much meat, says a well-known authority. DISTRUST 'CHARITY'

VLADIVOSTOK, Nov. 12.—The philanthropic and noncommercialism of the Young Men's Christian association is beyond the grasp of the average Russian mentality. Free distribution of foodstuffs and even luxuries like chocolate and cigars, to those not actually dependent upon charity, gives rise to speculation as to where the profit comes from. The Y. M. C. A. headquarters frequently has to discourage speculators who figure that there must be some way to buy from them in quantities what is freely given away by the surplus.

HEALTH TALK

SPANISH INFLUENZA OR GRIP

BY DR. LEE H. SMITH.

An old enemy is with us again, and whether we fight a German or a germ, we must put up a good fight, and not let the influenza run a good brief course when the patient is careful, and if we keep the system in good condition and throw off the poisons which tend to accumulate within our bodies, we can escape the disease. Remember these three C's—a clean mouth, a clean skin, and clean bowels. Carry off poisons from the system and keep the bowels loose, daily doses of a laxative should be taken. Such a one is made of May-apple, leaves of aloes, root of jalap, and called Dr. Lee's Pile-o-cure. Hot lemonade should be used freely if attacked by a cold, and the patient should be put to bed after a hot mustard foot bath.

To prevent the attack of bronchitis or pneumonia and to cure the pain, Anuric tablets should be obtained at the drug store, and one given every two hours, with lemonade. The Anuric tablets were first discovered by Dr. Pierce, and as they flush the bladder, clean the kidneys, they carry away much of the poisons and uric acid.

It is important that broths, milk, buttermilk, ice cream and sugar be given regularly to strengthen the system and increase the vital resistance. The fever is diminished by the use of Anuric tablets, but in addition, the bowels, arms and hands may be bathed with water (tepid) in which a tablespoonful of salutarin has been dissolved in a quart. After an attack of grip or pneumonia to build up and strengthen the system, obtain at the drug store a good iron tonic, called Dr. Lee's Pile-o-cure. Hot lemonade, herbal tonic, Dr. Pierce's Golden Medical Discovery.

LONDON, Nov. 12.—A dispatch from the Exchange Telegraph company from Copenhagen says that the Russian ambassador to Germany, and the Russian embassy staff, have returned to Berlin.

NO DATE CAN BE SET FOR THOS' RETURN

WASHINGTON, Nov. 12. (Sp.)—Just when the Tennessee troops will be released from overseas service is not known as yet, according to a statement issued by Secretary Baker. He said it is impossible to say when any of the various units will be brought back, but that in a general way he could say that such would be done as soon as possible with due consideration for the industrial conditions both here and in Europe.

As a general proposition, the secretary said men needed in the various lines of industry and the limited service men would probably be the first released and that a policy of mustering out first those first mustered in might be pursued.

There is a strong feeling in this country that the bare necessities of food, clothing and shelter are the government control. This gathers strength from ever-rising prices. It is hoped that it may be possible to devise some plan of international action by which prices can be brought to an equitable basis and all profiteering in food necessary to maintain human existence may be eliminated.

The American government and Herbert C. Hoover, the American food administrator, know the exact facts regarding the allied food requirements. They will soon know the real position of Central Europe. The American people have already proved they are capable of making any sacrifice, however great, in the allied cause. I feel sure that whatever further calls President Wilson and Mr. Hoover may think it necessary to make in order to meet the food emergencies of victory, they will be answered in the same spirit which the nation has displayed since it entered the war.
